866-ALL-WEST

****FOR UTAH CUSTOMERS ONLY****

Per the State of Utah Department of Commerce's S.B. 134*, as an internet service provider, we are required to notify you of your right to request the ability to block material you deem harmful to minors.

All West Communications recommends the use of one of the following websites to block such material:

Circle with Disney <https://meetcircle.com/>

Open DNS <https://www.opendns.com/home-internet-security/>

Sophos Home <https://home.sophos.com/en-us/free-anti-virus-windows.aspx>

While there is a charge for the Circle cube, it can be used with all internet-connected devices (mobile or desktop, hardwired or wireless) so you don't have to configure each device separately. (Open DNS and Sophos Home are both free, but you will need to configure your devices and/or download software.)

All West offers Plume® SuperPods™, a Wi-Fi system that allows you to manage the type of content that each device or profile can access. Additionally, you can approve or block specific websites per device or profile. If you are interested in the Plume SuperPods to keep your family safe, please contact our Customer Service team at 866.ALL.WEST (255.9378)

We care about our customers' internet safety and security—and what materials minors have access to. If you have any questions or concerns regarding the ability to block harmful material in your home, please contact us at 866.ALL.WEST (255.9378).
