

**FOR IMMEDIATE RELEASE**

**Fiber Optic Network Coming to North Ogden  
All West Communications Expansion Welcomed by Mayor Berube**

**NORTH OGDEN, UTAH | February 22, 2023** – All West Communications today announced plans to expand its multi-gig fiber optic internet, streaming TV service, and digital phone solutions to the residents of North Ogden, Utah. The expansion will include more than 113 miles of fiber and duct and will provide services to over 7750 homes and businesses in North Ogden. All West Communications is constructing their network through private funding at no cost to North Ogden City.

All West President, Matthew Weller commented, “We are pleased to bring new fiber infrastructure to North Ogden. All West has a mission to deliver uninterrupted, accessible, and affordable 100% Fiber Optic Internet service that both handles today’s internet needs and anticipates tomorrows.” This new expansion highlights the company’s rapid regional development and growth plans for the future.

North Ogden City Mayor, S. Neal Berube stated, “We are thrilled to coordinate with All West Communications as they build a fiber network within the city. Having high speed internet available at each home and business will improve the quality of life for residents and benefit businesses. North Ogden wholeheartedly supports this project and appreciates All West’s commitment to our community.” All West Communication’s fiber internet enables symmetrical speeds that are essential for today’s applications. These include video conferencing, telemedicine, cloud computing, and multiplayer gaming. All West fiber is built for the future, using the best technology available – with speed tiers of up to 8 Gbps for residential and 10 Gbps for businesses.

All West also participates in the Affordable Connectivity Program (ACP), an FCC program that reduces the monthly cost of internet service for qualified households. To learn more about ACP, please visit [www.affordableconnectivity.gov](http://www.affordableconnectivity.gov) (Home - ACP - Universal Service Administrative Company).

All West will fully fund the \$16M project, and engineering work has already begun. Construction will start in March 2023.
