

FOR IMMEDIATE RELEASE

Fiber Optic Network to Expand to Tooele, Utah All West Communications Expansion Welcomed by Mayor Winn

KAMAS, UTAH | March 3, 2023 – All West Communications today announced plans to expand its multi-gig fiber optic internet, streaming TV service, and digital phone solutions to the residents of Tooele, Utah. The expansion will include more than 135 miles of fiber and duct and will provide services to over 13,000 homes and businesses in Tooele. All West Communications is constructing their network through private funding at no cost to Tooele.

All West President, Matthew Weller commented, “We are pleased to bring new fiber infrastructure to the city of Tooele. All West has a mission to deliver uninterrupted, accessible, and affordable 100% Fiber Optic Internet service that both handles today’s internet needs and anticipates tomorrows.” This new expansion highlights the company’s rapid regional development and growth ambition.

Tooele City Mayor, Debbie Winn stated, “We are thrilled to coordinate with All West Communications as they build a fiber network within the city. Having high speed internet available at each home and business will improve the quality of life for residents and benefit businesses. Tooele City wholeheartedly supports this project and appreciates All West’s commitment to our community.” All West Communication’s fiber internet enables symmetrical speeds that are essential for today’s applications. These include video conferencing, telemedicine, cloud computing, and multiplayer gaming. All West fiber is built for the future, using the best technology available – with speed tiers of up to 8 Gbps for residential and 10 Gbps for businesses.

All West also participates in the Affordable Connectivity Program (ACP), an FCC program that reduces the monthly cost of internet service for qualified households. To learn more about ACP, please visit www.affordableconnectivity.gov (Home - ACP - Universal Service Administrative Company).

All West will fully fund the \$26M project, and engineering work has already begun. Construction will start in late February 2023.

For more information on All West Communications' fiber expansion and timeline, visit their website at <https://info.allwest.com/tooele> or call 833-386-9498.

About All West Communications

Since 1912, All West Communications has provided leading-edge telecommunication services. Based in Kamas, Utah, they operate a broadband-powered network to deliver

services that connect people and businesses to what matters most—across town and around the world.
