

JOIN OUR TEAM

WE'RE GROWING!

Reporting to the CFO, the Sr. Financial Analyst functions as the company's primary financial planning and analysis resource for forecasting, budgeting, risk management, and strategy, and coordinates with the Accounting team on initiatives.

Leads budget processes to support executive team and board of directors. Conducts and reviews in-depth analytical studies, recommends appropriate actions to executives and board members, identifying areas of focus, and leads management through the development and updating of All West's Financial Model.

Creates and oversees reporting mechanisms for presentation to board of directors and supports the CFO in managing bank group relationships and overseeing All West's secured credit facility, including covenant compliance and monthly/quarterly reporting to the lender.

Responsibilities

- Leads the budget and reforecast process, including development, distribution, review and maintenance of models as requested/needed by upper management and/or Sales. Calculates project/investment returns. Manages the capital budgeting process.
- Leads development of materials for board of directors and compliance with lenders. Compiles, analyzes, and reviews financial information of the Company. Develops integrated revenue/expense analyses, modules, projections, reports, and presentations.
- Assists executives and board of directors in the formulation of the Company's overall strategic direction and benchmarking studies to establish areas of potential growth and operational improvement.
- Defines and resolves complex problems involving multiple arenas; identifies the problems and the business requirements for their solutions; coordinates and/or recommends solutions.
- Prepares work plans for individual tasks independently; major project plans and specific tasks identified; establishes baseline project plans, identify and tracking of issues, managing project change control items, tracking progress against plan, and reporting subject to status.
- Reviews and tracks monthly revenues and subscriber trends and analyze associated fluctuations on a market level for the Company. Analyzes revenue, growth and opex trends. Identifies areas for financial cost improvement.
- Other duties as assigned.
