# **WE'RE GROWING!**

We are looking for an Engineering Supervisor with telecommunications experience. The successful candidate will be able to drive projects, is a great communicator, self-directed, quality-focused, and detail oriented.

## **Responsibilities**

The Engineering Supervisor supports the Vice President of Construction and Engineering by overseeing daily engineering activities, guiding team members, and ensuring projects are executed according to specifications. This role focuses on supervising work, coordinating tasks, and providing technical leadership, while fostering a collaborative and high-performance environment.

- Supervise engineering staff in daily operations, ensuring work is completed efficiently and according to project requirements.
- Represent the engineering team in meetings with city officials, contractors, and stakeholders, advocating for project needs.
- Reviews OSP layout for ensuring validity of routes
- Address and resolve issues related to documentation, regulatory requirements, or project adjustments, escalating to the Vice President of Construction and Engineering as needed.
- Promote cooperation between departments and maintain effective communication to address work levels.
- Assist in coordinating projects with professional engineering firms.
- Other duties as assigned

## **Qualifications**

- High school diploma, required
- B.S. degree in engineering, or a related field, strongly preferred
- Three or more years telephony or broadband engineering, required
- A valid driver's license and good driving record, required
